Experience

Senior Backend Developer

Remote

JourneyFront

Aug 2025 – Present

- Engineered **AI-automated employee sync** via **Kombo HRIS integration**, implementing webhook-driven sync triggers, core field extraction, and cross-vendor data normalization.
- Designed **Celery + SQS async task pipelines** for scalable, decoupled background processing across third-party integrations, improving system throughput and resilience.
- Enhanced system **observability** through structured logging and query optimization, identifying and resolving N+1 issues across high-traffic endpoints.
- Technologies used: **Python | Django | PostgreSQL | Celery | AWS SQS | Redis | Kombo API | Vue.js**

Application Developer

Pune, MH

Noovosoft Technologies

Sep 2022 – Aug 2025

- Implemented an **AWS Lambda** function using **Terraform** and a **NAT Gateway** to overcome IP restrictions, enabling scalable architecture and replacing legacy data connectors.
- Engineered automated feed management system by integrating **TapFeed data**, reducing manual efforts by **80%**.
- Configured **pre-push Git hooks** to automate test execution and enforce code formatting with **Black**, leading to a **95% reduction** in bugs and inconsistent code styles.
- Mentored incoming interns by introducing **software engineering best practices**, improving **code quality, test coverage**, and ensuring timely project delivery.
- Technologies used: **Python | Django | PostgreSQL | Celery | AWS | Terraform | CI/CD Automation**

Backend Developer (Intern)

Jalgaon, MH

Siteguide Pvt. Ltd.

Apr 2021 – Aug 2022

- Optimized application performance** by reducing load time by **70%** through efficient database queries and code enhancements; **developed reusable modules**, accelerating development for 20% of other projects.

Projects

FinSailor

Apr 2024 - Present

- Developed a **full-stack investment tracking app** with broker integrations (Zerodha, Groww), portfolio health analysis, mutual fund tracking, and real-time market data using **Celery** for async tasks.
- Technologies used: Python | Django | Celery | PostgreSQL | React

CollaborativePY

Nov 2022 - Mar 2023

- Developed a **web-based Collaborative IDE** with real-time code sharing, **Text/Video chat** (WebRTC), and synchronous pair programming.
- Supports async team workflows, parallel debugging sessions, and live code review. Tech: Python | Django | WebSockets | WebRTC | Node.js | PostgreSQL

MahaSIG Portal

Jan 2022 - Mar 2022

- Developed a full-stack Student-Industry-Government portal with **P2P/Group Chat**, **OTP verification**, and automated feedback emails.
- Built **spreadsheet/PDF generation** and real-time notification features. Tech: Django | Channels | Redis | Bootstrap | PostgreSQL

Skills

Languages: Python, C, C++, Java, PHP

Frameworks & Libraries: Django, Flask, CodeIgniter, Celery, Vue.js, Bootstrap

DevOps & Tools: MySQL, PostgreSQL, Redis, Git, Docker, Nginx, Apache, AWS, AWS SQS, Google Compute Engine, Terraform, Kombo API

Education

Bachelor of Engineering Information Technology

Jun 2020 - May 2023

Sinhgad Institute of Technology and Science, CGPA: **9.64**

Diploma in Computer Technology

Aug 2017 - May 2020

Government Polytechnic Nashik, Percentage: **88.00%**

Achievements

Winner – Mindquisitive Hackathon among 75+ groups

Showcased – Real-time portal featured at intra-college innovation fair
